The following is an examiner's statement of reasons for allowance:

Claim 1 and the claims which depend thereon are allowed since claim 1 requires a method of generating embroidery data from image data comprising classifying points from edge contour data, wherein each of the classified points is proximate to at least one skeletal node associated with the image data, and wherein the at least one skeletal node includes at least one of a junction node or an end point node.

Claim 14 and the claims which depend thereon are allowed since claim 14 requires a processor coupled to a memory and programmed to classify points from edge contour data, wherein each of the classified points is proximate to at least one skeletal node, and wherein the at least one skeletal node includes one of an end point node or a junction node, and generate embroidery data.

Claim 27 and the claims which depend thereon are allowed since claim 27 requires a machine readable medium having instructions stored thereon that, when executed, cause a machine to classify points from edge contour data, wherein each of the classified points is proximate to at least one skeletal node, and wherein the at least one skeletal node includes one of an end point node or a junction node, and generate embroidery data.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
